## **Notice of Voluntary Recall of Partial Batch of SEIROGAN TOI A**

We, Taiko Pharmaceutical Co., Ltd., hereby formally announce a voluntary recall of specific batches of one of our products, namely “SEIROGAN TOI A” (the “**Products**”), due to the following reasons.

We have initially observed cracks on some of the PTP packages of the Products. In addition, the results of the stability monitoring tests have also shown that the guaiacol content in Wood Creosote, one of the active ingredients of the Products, in some batches was, or possibly may be, below the approved specification at the expiration date.

Although the recalled Products would not cause harm to human bodies nor pose any health hazards, we have decided, as a precautionary measure, to recall voluntarily the relevant batches of the Products.

We need to emphasize that after a preliminary examination, the safety of the recalled Products is not affected. To date, we have not received any report of health problem resulting from the consumption of the recalled Products.

In any event, we thank you for your understanding and cooperation in this matter. We apologize to our customers and all parties concerned for any inconvenience caused by this recall.

We are committed to maintain and improve the quality of the Products to ensure that customers can use the Products with confidence.

### **Products subject to recall:**

SEIROGAN TOI A PTP24 tablets batch number : 41RF2、BS0029

※Batch number is indicated on the bottom or side of the product.
